MILLING OFF AND TURNING OFF COPPER

Order No.	Product	Application / Property
CUTTING OILS		

Sliding agents for cylinders which are treated with a Polishmaster; oils are effective even as very thin film on the surface; no smoke development during cutting off; non-toxic and non-polluting; life-time of the cutting tools is increased

A03-0531 Cutting Oil T2002 Acecor 15703 and T2002 are completely water-soluble and therefore easy to remove

M14-00104 Cutting Oil D1 D1 is not completely mixible with water; it differs in content of grease and the removal is more large scale; such greasy oil works as protective film while storing the cylinders

GENERAL PRODUCTS FOR MILLING OFF AND TURNING OFF COPPER		
--	--	--

A03-0534 Hydrofluid Concentrate for hydrostatics

A01-0100 ff. Cutting Tools for Polishmaster Rough-, fine- and side-cutting tool

A01-0089 Cutting Tool for CFM-Machine
A01-0161/N Polycrystalline tool for Superperfast Face cutting tool

A01-0128 Side Cutting Tool resp. Insert for side cutters Side cutting tool (for CFM-Machine resp. Superperfast)

FILTER MATERIAL FOR GALVANIC BATHES

Order No.	Product	Application / Property
	B03-0508 ff. Depth Filter Cartridges PUR	Polypropylen fi lters (depth fi lter) for cleaning of electrolytic solutions; strong dirt absorption over the whole filter depth; long life-time; wide chemical compatibility; available in various lengths (10", 20") and µm-sizes (1, 3, 5, 10, 20 µm)
	B03-0534 ff. Wounded filter Cartridges 10" and 20"	Wounded PP filter cartridges in various µm-sizes (e.g. 1 µm, 10 µm, etc.)
	B03-0455 ff. Activated Carbon Filter Cartridges 10" and 20"	For removal of organic compounds in electrolytical solutions
	B03-0302 ff. Filter Disks	For Cleaning of electrolytical solutions; available with customized sizes and thicknesses; made of paper or card-board
	B03-0450 ff. Activated Carbon Filter Disks	For removal of organic compounds in electrolytical solutions; available with customized sizes and thicknesses
	B03-0990 ff. Filter Fleece HM50, T40 or T70 V60 and HD 130	Filter fleece for band filter system, Length: 100 m or 200 m; Width: 480 mm or 750 mm
